Issues that Matter

A Once-a-Month Friday Night Speaker Series

Mayor Thomas P. Koch

Thomas Koch became Mayor of Quincy in January 2008. He’s since been re-elected five times and is the longest serving Mayor in the City’s history. Over the years, regardless of the crisis or challenge Mayor Koch has been able to leverage his long-time relationships with federal, state and private-sector leaders to make Quincy a consistent leader in emerging stronger from crisis. Under his direction, the City has opened three new state-of-the-art schools; maintained one of the strongest, most diverse school systems with small class sizes; built new parks; restored and protected vital historic assets; and made unprecedented investments in replacing the City’s aging and faltering infrastructure. Nowhere is the progress the City has made more clear than in its downtown with hundreds of new residences and dozens of new restaurants and businesses.

The mayor is also actively involved in a number of groups and organizations around Quincy, including Sacred Heart Church, the Quincy City Club, and the Quincy Partnership. He married his high school sweetheart, Christine, in 1990. They have three children and live just two doors down from the mayor’s childhood home on Newbury Avenue.
